PROFESSIONAL EXPERIENCE

Associate Software Engineer — Credex Technology

Jul 2026 – Present

- Develop scalable enterprise web applications using React.js, TypeScript, Node.js, Express.js, MongoDB, and SQL, delivering features to production.
- Design reusable frontend components and build/integrate REST APIs, improving development efficiency across the team.
- Debug and resolve production issues in collaboration with senior developers and QA, improving application performance and user experience.
- Follow Agile development practices and manage source code with Git and GitHub across multiple releases.

Software Development Intern — Credex Technology

Jan 2026 – Jun 2026

- Built responsive React.js user interfaces and reusable UI components for enterprise-grade software projects.
- Integrated frontend applications with backend REST APIs built on Node.js and Express.js.
- Assisted with MongoDB database integration and resolved bugs to optimize existing features.
- Participated in code reviews and Agile ceremonies, strengthening understanding of the enterprise SDLC.

Web Development Intern — SecPen Labs, Noida

Apr 2025 – Jul 2025

- Developed and debugged responsive full-stack features using React.js, Node.js, MongoDB, TypeScript, Redux, and Context API.
- Improved existing UI, fixed bugs to enhance performance, and maintained code in GitHub repositories.

PROJECTS

NoteNexus | *React.js, Node.js, Express.js, MongoDB, JWT, REST API, Git*

- Built a student notes-sharing platform with JWT-based authentication, a user dashboard, and full CRUD operations.
- Implemented secure file upload and a responsive UI on a scalable MERN architecture with database integration.

Prep AI | *React.js, Node.js, Express.js, MongoDB, Gemini API, Vapi AI*

- Engineered an AI-powered interview preparation platform featuring real-time, voice-based interviews via Vapi AI.
- Integrated the Gemini API to generate personalized interview questions and AI feedback, with authentication and a results dashboard.

Digital Marketing Website | *React.js, TypeScript, Tailwind CSS, EmailJS*

- Developed a responsive, component-based landing page with an integrated contact form via EmailJS.

Stock Management Platform | *React.js, Node.js, Express.js, MongoDB*

- Built a stock dashboard with company symbol mapping, dynamic logo rendering, and CRUD operations via REST APIs.
